SUMMARY

Software Engineer with over 1.5 years of professional experience in Node.js, React.js, Python, RESTful APIs, OAuth 2.0, and ETL pipelines. Proficient in Agile environments with hands-on work in Salesforce, PostgreSQL, and Apache Airflow.

EXPERIENCE

Fluree Software Pvt Ltd

Aug. 2025 – Present

Software Engineer

Bengaluru, India

- Implemented Keycloak authentication and authorization using OAuth 2.0 and RBAC, enabling centralized identity and secure access control.
- Built a Python ETL pipeline with Apache Airflow to automate Google Trends data ingestion, reducing latency by 30%.
- Developed database connectors for 4 heterogeneous systems, ensuring reliable data integration and cross-platform compatibility.
- Integrated Claude AI to auto-generate daily status reports (300+records/day), improving analytics clarity by 15%.
- Designed and optimized RESTful APIs, collaborating in an Agile team to enhance system performance and data workflows.
- Improved query performance and system scalability through optimization and monitoring strategies.

Fexle Services Pvt Ltd

Jun. 2024 – Dec. 2024

Summer Intern

Jaipur, India

- Completed 15 Salesforce Admin and Developer Trails, gaining expertise in CRM solutions
- Ensured seamless deployment on Salesforce cloud, achieving 99.9% system uptime
- Collaborated with a 4-member team to design and develop a Banking Management System, resulting in a 20% improvement in operational efficiency
- Optimized database queries to improve system performance, reducing average response time by 30%
- Implemented role-based access control RBAC to enhance data security, ensuring compliance with industry standards and improving user management efficiency by 25%
- Automated customer service processes by integrating React with Java backend

PROJECTS

AI-Integrated Trip Planner

- Engineered a React-based web app featuring Google OAuth authentication for secure login
- Leveraged AI algorithms to create personalized trip itineraries, increasing user engagement by 25%
- Deployed the app on a cloud platform, providing real-time trip history with robust database support

Fit Feast-AI

- Built a cross-platform Android app using React Native, achieving 95% crash-free sessions across 200 test users
- Integrated AI models to generate over 1,000 personalized recipes, increasing user engagement time by 40%
- Delivered dynamic diet planning and nutrition dashboards, reducing manual tracking effort by 60%

EDUCATION

Aligarh Muslim University

Aug. 2023 – Jun 2025

Masters in Computer Applications (MCA)

Aligarh, India

Aligarh Muslim University

Aug. 2020 – Jun 2023

Bachelor of Science in Mathematics (B.Sc.)

Aligarh, India

SKILLS

Languages: JavaScript (Node.js), Python, Java, C/C++, SQL

Frontend: React.js, React Native, Next.js, HTML5, CSS3, Tailwind CSS, Streamlit

Backend: REST APIs, GraphQL, Microservices, Django, Flask, FastAPI, JWT, OAuth 2.0, RBAC

Python: NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow/Keras, OpenCV

Databases: PostgreSQL, MySQL, MongoDB, Redis

AI/ML: Prompt Engineering, LLM Integration (Claude, Gemini, ChatGPT), Generative AI, Vibe Coding

Tools & Platforms: Git, GitHub, Docker, Postman, Apache Airflow, Salesforce, SonarQube
